II. Progress of Future Growth Strategy

	Overview of measures	Update as of now
Customer/ Sales	Introduction of customer NPS, eNPS, and PDCA	<ul style="list-style-type: none"> Introduced to 98 stores and achieved +3 p.p. to 8 p.p. budget achievement rate compared to stores, to which it was not introduced. Sales staff's motivation measures have also been enhanced
Price	Price strategy based on scientific analyses (Optimization of price setting, proper sale rate, items per customer)	<ul style="list-style-type: none"> Among the 31 existing major brands, 18 brands are implementing the correct price strategy in Q3RD, which is 50% more than the 12 brands during the first half.
Product	Refine products' "appealing points" and limit the number of styles	<ul style="list-style-type: none"> 12 brands among the existing major brands have successfully reduced the number of styles The number of models has reduced by approximately 10%
Place	Store opening policy through centralization of contacts with major developers	<ul style="list-style-type: none"> 58 stores for 21 brands opened in Q3RD. Stores were opened with good conditions through the collective efforts of the TSI Group
Promotion	Investment in digital promotion	<ul style="list-style-type: none"> Drastic shift from paper media to digital promotion. Currently enhancing relationship with Google
Brand Portfolio	Determination of the maximum growth potential of each brand	<ul style="list-style-type: none"> Holdings leads the growth strategies for brands with more potential to grow and M&A etc. to fill in gaps in the portfolio
EC/ Digital	E-Commerce enhancement and partnership to introduce digital technologies	<ul style="list-style-type: none"> E-commerce ratio has grown to 10.8%. Considering partnership with European and U.S. companies with the latest digital technologies, such as Intel and SFDC
Overseas/ M&A	Carefully selected M&A based on trustworthy value evaluation	<ul style="list-style-type: none"> Negotiating domestic/overseas M&A (apparel/natural cosmetics), partnership with a Chinese apparel company, and partnership with domestic beauty industry.
Cost	Purchasing at market's best prices	<ul style="list-style-type: none"> Completed the careful review of 118 items, expecting reduction of 850 million yen in this FY. Will reflect 2 billion yen reduction on the budget of the next FY.
SCM	Rationalization of logistics and optimization of cost (Concentration of warehouses, direct trading, optimization of the margin for trading companies, overseas inspections/assortment of products)	<ul style="list-style-type: none"> Each company is steadily promoting the efforts to achieve the 1 billion yen reduction in the FY2018 ending Feb. The direct trading rate is expected to land at 13.3% at the end of this FY (FY2015 was 11.3%)
Process	Create added values through simple operation processes	<ul style="list-style-type: none"> Reduction of opportunity losses/lost profits by enhancing the accuracy of demand forecast, production, and distribution by sophisticating planning/creation and BPR

NPS Project is being steadily promoted and will accelerate its implement in all brands

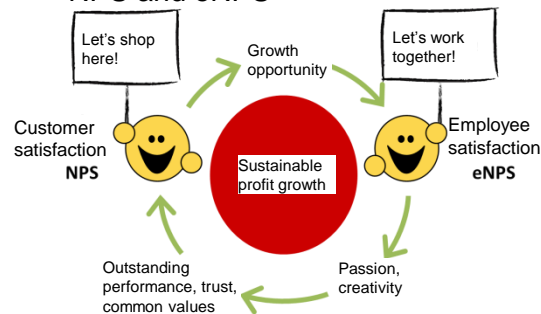

Customer NPS

- Measure customers' loyalty toward the brand (**Already studied with 1,414 customers in 24 stores**)
- Listen to customers' real voices and clarify the improvement actions in terms of customer services and products (start/stop/continue)
- Improve customers' lifetime values by increasing promoters and reducing detractors

eNPS

- Measure the loyalty of store managers/sales staff toward working for the brand (Already studied with 1,348 employees in 251 stores of 6 brands)
- Formulation of specific proposals to improve training, incentives, and motivation
- Continuously expand profits through the improvement of both customer NPS and eNPS

PDCA

- ① Store performance of day/time of day
- ② Best practices in the field
- ③ Enhance the “visualization” of actions and leverage store performance in an organizational manner **(Already introduced to 98 stores of 6 brands)**
- Sophisticate the quality and quantity of communication between store managers and SVs and swiftly improve store performance **(Increase the number of SVs by 1.5 times)**

- Targets for the number of customers/customer unit price by time of day and by individual
- Analysis of positive factors/negative factors of each day
- Plan to gain back the unachieved amount against the budget
- Motivation improvement through rallies
- Immediate deployment of best practices
 - Real-time improvement of VMD
 - "Best Sales Talk"

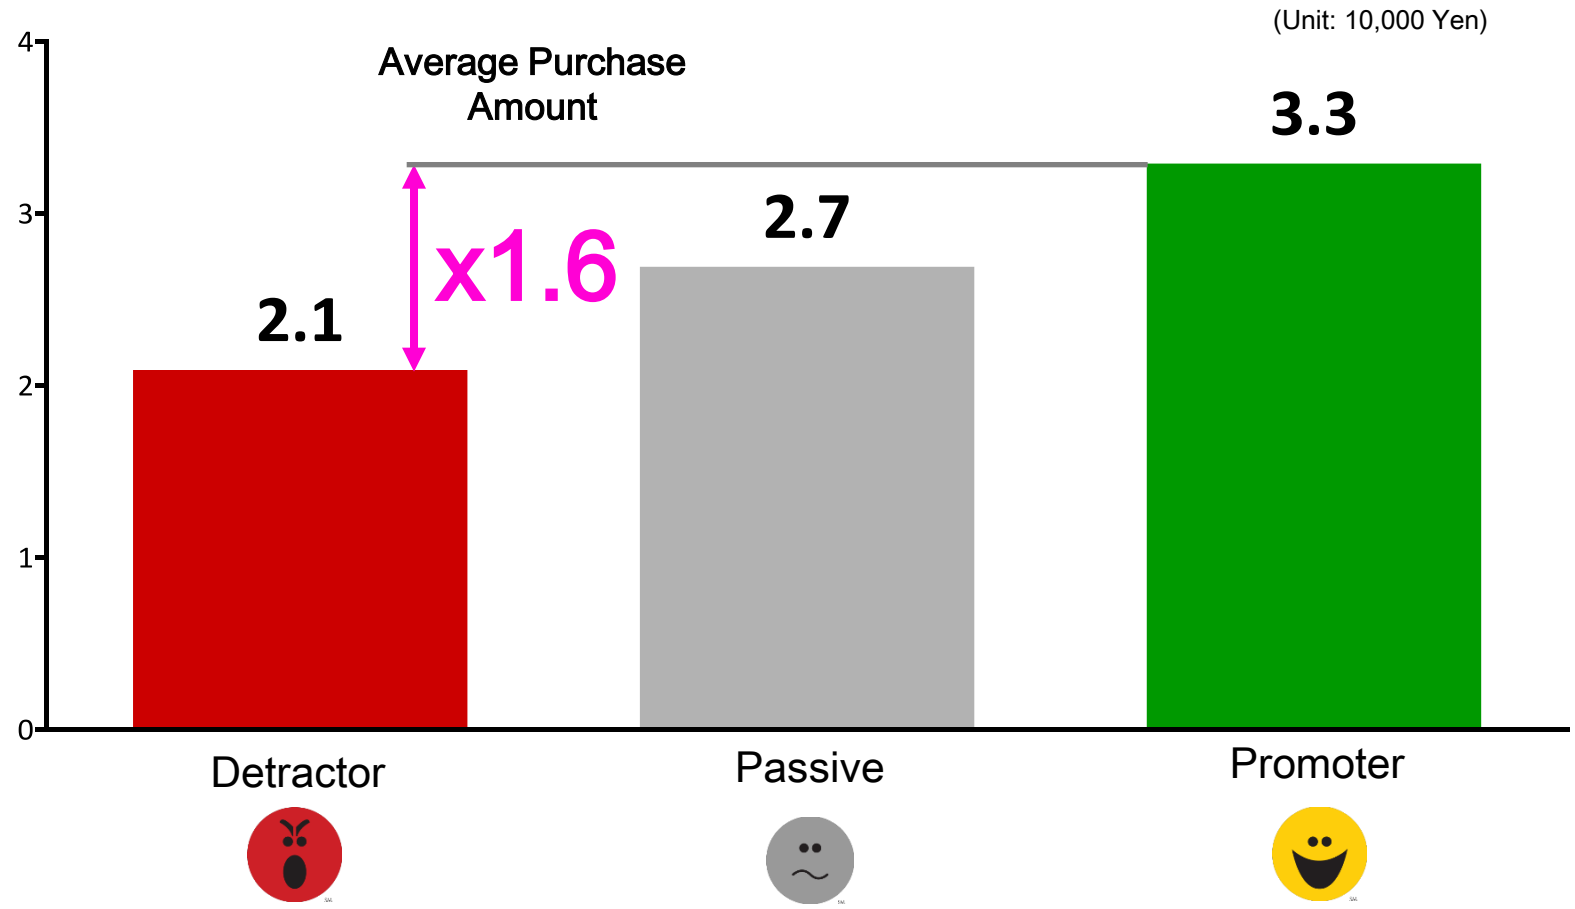

Financial result

Store to which the project are introduced have improved the performance by 3 p.p. to 8 p.p. in terms of the budget achievement rate

Lifetime value of a customer increases through increasing number of promoters and reducing that of detractors

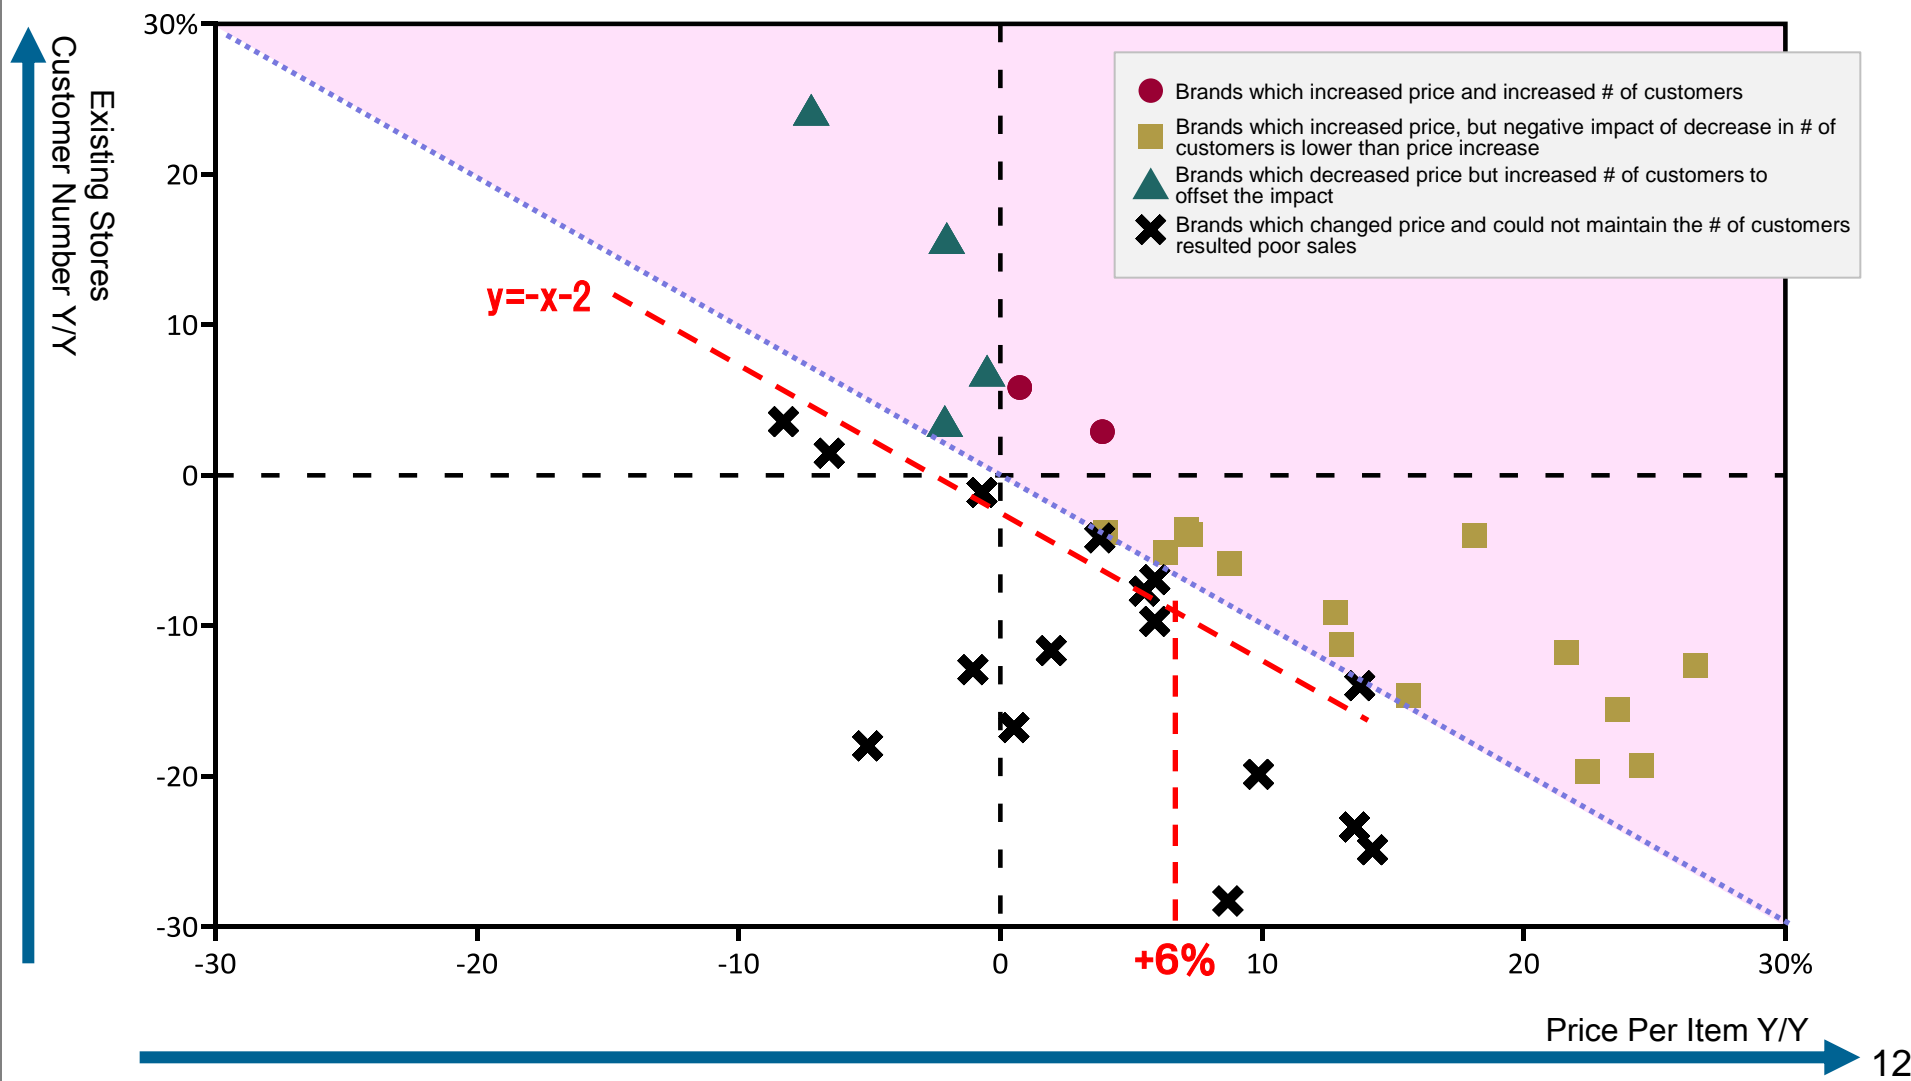

CUSTOMER NPS

Average purchase amount of Natural Beauty Basic by promoters, passives and detractors

Customer NPS Survey conducted at 24 stores in Nov. 2015: Aeon Okazaki, HEP FIVE, iias Tsukuba, Kuzuha Mall, Tama Plaza Terrace, Diarmor Osaka, Yokohama JOINUS, Kichijoji PARCO, Keihan Department Store, Kyoto CUBE, Sapporo Aurora Town, Sannomiya OPA, Myroad Shinjuku, Nishinomiya Gardens, Sendai S-PAL, Lumine Omiya, Lumine Ofuna, Machida Tokyu Twins, Tennoji MIO, Tenjin, NAMBACITY, Kashiwa Station Mall, Akashi VIVRE, Granduo Tachikawa

18 brands implemented the correct pricing strategy in Q3RD(12 brands in Q2ND)

Despite the fact that promotion media is shifting from paper to digital,
TSI's has been concentrating on paper based promotion

WEB media contact time continues to increase

Transition of Media contact time proportion from 2010 through 2015: magazine -2%, WEB +15%. Women from age 20-30, the target volume zone of TSI, have longer contact time of WEB and shorter contact time of magazine.

Survey of Media Contact Time by female age

► Shift promotion media from paper to digital to **increase brand's touch points with women from age 20-30**

Investments in “digital” and “sales field” by optimizing the “procurement cost”

Result of the Procurement Project

- We broke down the overall cost (including paper media) into 118 cases, closely reviewed unit prices, and clarified the appropriate expenditures compared to competitors' standards and social standards
- As soon as the analysis was completed, we began promoting unit price negotiations and appropriating expenditures (ongoing)

Result

- Q3RD: Reduced 400 million yen
- This term: Expecting to reduce 850 million yen
- Next term: Planning to reflect 2 billion yen reduction on the budget (Amount is in comparison to FY2015 Ending Feb.)

Investment in digital**Google**

- Acquire an account from Google (ongoing)
 - Prioritized introduction of Google's latest advertisement products
 - Early utilization of the Big Data analysis report
 - Unification of global digital advertisements

SNS

- Introduction of marketing automation (ongoing)

- Increase the digital promotion budget to competitors' best practice standard

Investment in the sales field**<Examples of initiatives by each brand>****Improvement of working conditions**

- Improvement of the first wage
- Improvement of conditions for subs

Enhancement of clarity in incentives

- Increase in bonus of well-performing staff
- Enhancement of rewards for stores that achieved the budget
- Rewards for stores with improved NPS

Other

- Enhancement of various award systems
- Enhancement of employee sales and rental clothes systems
- Leveraging of stores with poor eNPS
- Increase in SVs

Convergence: Majority is Google, Fan is Social Media

Google

The world's largest search engine which provides various services to individuals to businesses

Facebook Group

The world's largest social media which reached the milestone of 10 billion users in a single day in 2015

Success in digital advertisement hinges upon how effectively we work with these Big 2

Ranking of Search Engine Share by Country

*Research by StatCounter

Japan

Yahoo Japan adopted the search engine algorithm of Google from 2010
>>Domestic share is virtually 94%

Asia

Google has no competitor in the region
>>Asian share is 94%

It is clearly apparent that in both brick-and-mortar shop and digital,
Google is the search engine where TSI must reinforce digital advertisement

Almost all brands' O2O sites are now on the table,
developing smartphone apps to meet the needs in "Smartphone First" era

Expansion of E-commerce Business Abroad

Free's Mart is the first Japanese brand launched in Zalora, an E-commerce site in SEA which is famous among younger generation

Expansion of business in Asian market through establishing multilingual(English, Chinese, Japanese) E-Commerce sites

M&A and overseas business development is moving forward strongly,
with full utilization of the network from the business partner

**Business
Partner**

The state-on bank which is known as a leader of successfully bring up domestic companies to the global market and industry consolidation in Japan. TSI formed the strategic alliance: capital tie-up and business partnership in July 2015. With DBJ's know-how and network from track records of investing companies with medium- to long-term growth potential, TSI's M&A and overseas development is underway.

**Core
Apparel**

**Affiliated
Businesses**

- M&A of domestic Apparel
- Complement the blank area of TSI's brands portfolio
- Partnership and joint venture with major Chinese apparel companies
- Foray into China's accessible luxury and middle-range market
- M&A of natural cosmetic companies
- Bring stable businesses that are not easily affected by climate and economic factors into TSI's brand portfolio, and accelerate the growth through full utilization of store development capacity
- Aim for not only the domestic market but also expanding to Asian markets
- Partnership with major companies from domestic beauty industry
- Launching a new omni-channeling business with partners to provide shopping experiences in hair salons.

Negotiations of M&A and business partnership are underway

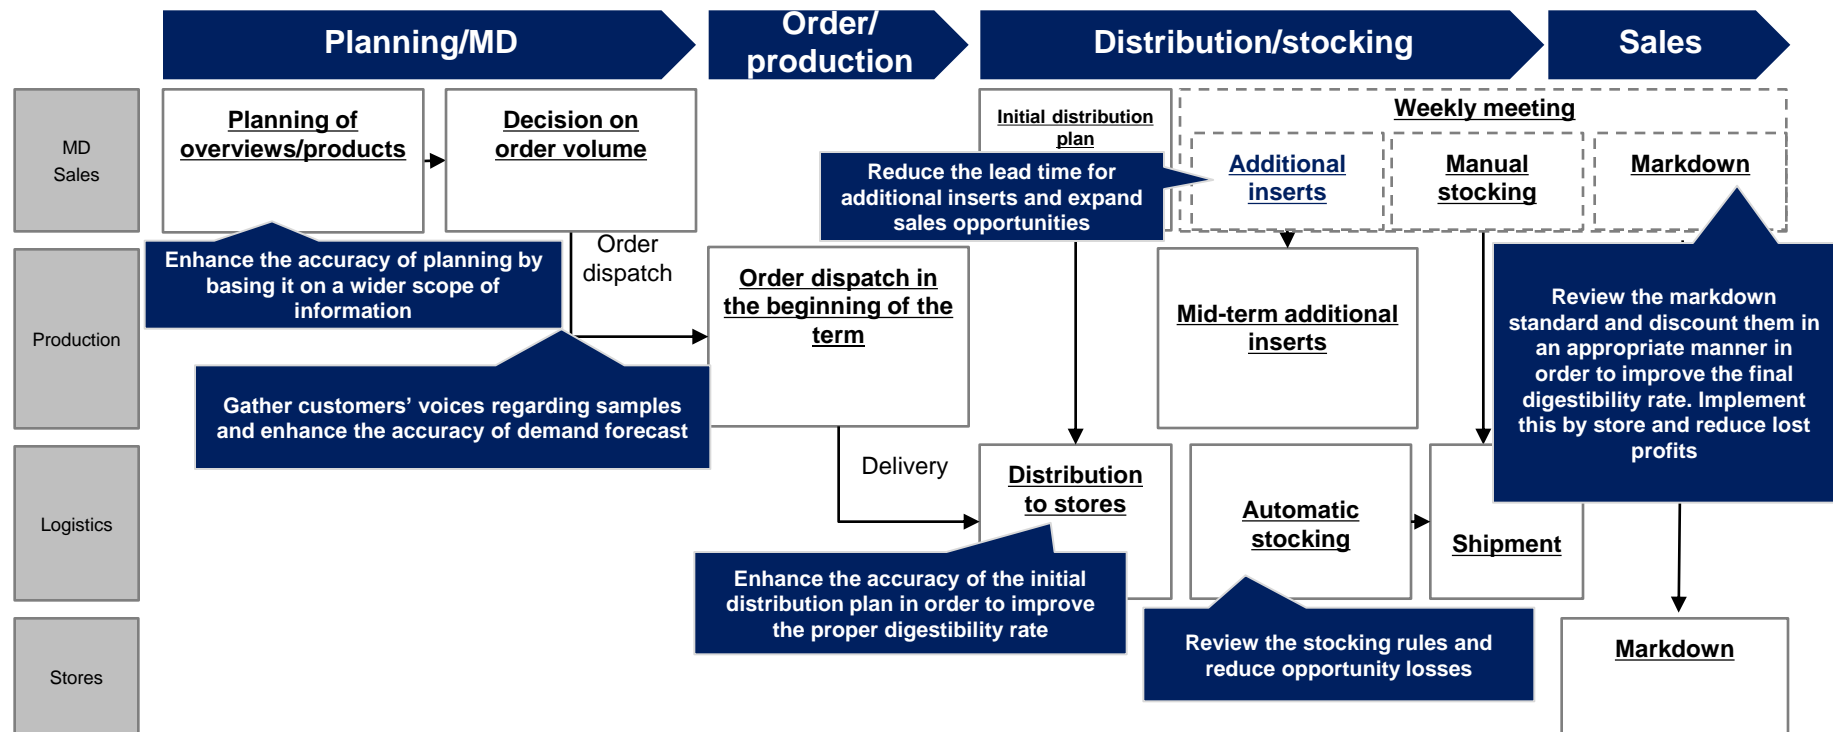

Enhance the accuracy of planning, demand forecast, production, and distribution by sophisticating processes

Enhancement of planning/creation

Start establishing an internal process to analyze social trends, translate them into fashion trends, and reflect them on actual manufacturing as well as inviting external specialists

Implementation of BPR (Business process re-engineering)

Fundamentally review the business process and standardize/streamline the way to work, which is highly dependent on people, while respecting the difference in necessary tasks for each brand/business characteristic

- Minimize “sales opportunity losses” and reduce “lost profits” based on scientific analyses
- Also consider optimizing the proper sales measures during sales seasons and MD policies that are not easily affected by weather

Increase ROE by improving capital efficiency and seek further fulfillment of shareholder return policy

Efficient Use of Capital

Consolidated capital of TSI Holdings to seek efficiency of payment operation
->e.g. Cash Management Service etc.

Efficient Use of Investment Securities

Clearly demonstrate the holding policy of investment securities by setting out the corporate governance code

Buy Back Shares

Announcement of share buy-back on Nov. 10, 2015 4,000,000 stocks and 4 billion yen as the limit, acquired stocks from Nov. 11, 2015 through Jan. 12, 2016.
【Acquisition Status as of Jan. 12, 2016】
4,000,000 stocks with 3,382,139,900 yen

Shareholder Return Policy

Continue the stable dividend and discuss further shareholder return plans from multiple perspectives
